Benita,

I just got the quote back from Scientific Sales. It looks like they beat AirGas' price. I'll attach both quotes though.

Those are fine and since Government Scientific is a mandatory source, its fine. Monday is good because I'm off on Fridays and I working from home today.

Benita,

I can't find a similar part offered by Thomas Scientific and the rep from Government Scientific Source says they don't sell that type of equipment. I am hopeful that Scientific Sales comes through, but I probably won't get a quote from them until Monday. Do you have any other sources I can go through to get a third quote?

Good morning James,

Thanks for the information. Per our Comptroller's office, we need three quotes for a product. I was given the attached information for us to search for products like what you are requesting. Please check these sites and provide quotes (if available). We are to use mandatory sources for purchases whenever possible. If they do not have what you want, let me know.

**Subject:** 3AP20 Equipment Order

Hey Benita,

The attached quote is for two new on-demand regulators for use with our calibration gases stored at the AMS Lab on Lycoming St here in the city. Zelma and Dave have already given their approval for this purchase. Is there any more information you need from me for this order?

Thanks!

Z,

I need your approval to let James purchase this item. Please forward an email to Dave approving of this and he can., then, forward it to me with his approval. Thanks.
